

Florida Cybersecurity and IT Service Providers Workshop

March 25, 2021 • Held Virtually

FloridaMakes

Training for IT & Cyber Providers on new DoD Cybersecurity Requirements

Join us at our FREE virtual cybersecurity and information technology service providers workshop. IT providers will learn how to successfully implement DFARS regulations for themselves and their clients, as well as review the latest information regarding the Cybersecurity Maturity Model Certification (CMMC) standards.

[FREE Registration: https://bit.ly/3r0yWRC](https://bit.ly/3r0yWRC)

Conducted in partnership with the Florida Department of Economic Opportunity, FloridaMakes, the Department of Defense Office of Local Defense Community Cooperation and other statewide organizations, this interactive virtual workshop will assist IT service providers in understanding the development and rollout of the DoD's regulations for Cybersecurity.

Key Discussions will Highlight

- DFARS regulations and the DoD's new Cybersecurity Maturity Model Certification (CMMC) standards which are being promulgated this year and could potentially be extended to federal government contracts from agencies beyond the DoD
- Closing the gap between reality and expectations with clients seeking certification
- Tech Stack evaluation and what to do if it's not "up to code"
- Tracking the time commitments associated with NIST SP 800-171 and CMMC assessment support on behalf of your clients
- Detailed reviews & analysis of MSP tech stacks (live Q&A)

[Admission is FREE](#)

Cyber Assessment Discount Program

During the Cyber Assessment Discount Program segment of this event, attendees will learn how to navigate their certification process. Topics will include:

- Eligibility criteria for defense organizations seeking certification(s)
- Requirements to be able to support assessments eligible for discounts
- Requirements for agreements, tracking and validation of deliverables
- Amount of funding available per assessment
