

BOOTCAMPS

Florida Space Coast Cybersecurity Forum

March 23-24, 2021 • Held Virtually

Presented By

U.S. Department of Defense
Office of Local Defense
Community Cooperation

The Department of Defense (DoD) has provided Florida's business community with an enormous opportunity with their investment in our state. With more than **\$22 billion a year** spent on contracted defense procurement across Florida and more than **\$95 billion in total** annual economic impact, supporting our warfighters is critical to both Florida's economic health and our national security.

As the DoD ramps up its focus on cybersecurity and securing their supply chains, manufacturers and defense contractors of all types will need to take specific steps to protect their networks if they want to continue doing business with DoD. The DoD is starting to implement their new standard for cyber protections, the Cybersecurity Maturity Model Certification (CMMC).

What will Attendees Learn?

- Detailed compliance training for small- and medium-sized defense contractors
- Best practices to protect your company's critical data
- Techniques to respond to real cybersecurity risks
- Resources to update and maintain cybersecurity compliance

REGISTER TODAY
to learn about new
cybersecurity standards
and how to protect you
and your business.
